

ALFLEX 25

Semi-rigid textile hose, in accordance with EN-694 (class 6),, for use in fire hydrants and hose reels. Manufactured from polyester fabric with a spiral weft of monofilament polyester and an internal synthetic thermorubber coating.

Its low mass and external diameter make it the ideal hose for equipping quality hose reels in which design and reduced dimensions are key.

ALFLEX: Hose	3/4"	25"
Service pressure	12 bar	12 bar
Minimum burst pressure	150 bar	115 bar
External diameter	25 mm	31 mm
Weight per meter	190 gm	219 gm
