

RYLSIAM DOUBLE

Applications:

Oxyacetylene welding at 20 bar working pressure.

Material:

Double synthetic rubber tubing, smooth, reinforced with polyester fabric.

Surface:

Smooth.

Colour:

oxygen – blue / acetylene - red.

Identification:

Marked Rylsiam OX / AC. Colour: Red – Blue.

Standard length:

50 or 100 metre rolls.

Temperature Range:

-20°C to 80°C.

Standard:

EN 559.

APPLICATION:

Double RYLSIAM hoses in oxyacetylene equipment at 20 bar pressure in industrial welding workshops.

TECHNICAL DATA

Code	Internal-External Diameter (mm)	Service Pressure (bar)	Bursting Pressure (bar)	Standard Length (m)
02100	6 - 6	20	60	50 - 100
02101	8 - 9	20	60	50

TECHNICAL DATA

Code	Internal-External Diameter (mm)	Weight (g/m)	Roll Weight (kg)	Roll Dimensions (cm)
02100	6 - 6	300	15	40x40x12
02101	8 - 9	360	18	50x50x16
